Annexure 2.

ADVIA CENATUR Performance Evaluation.

Following Procedure was Carried out as part of the Performance Qualification for Advia Centaur CP bearing serial No. ROB30006116 Installed in Impulse Daignostics, Silchar:-

1. Calibration of Assay

Checked and found all calibrations within the acceptable CV limits and in range.

See Print out Attached.

2. Internal Quality Control Performance

Three-Level Biorad Lyphocheck Immunoassays Control. Checked and found all level Controls to be within the acceptable SD limits. See print out Attached.

3. Precision Study

A Within Run Precision of 10 replicates were carried out for TSH, TT3, TT4 and CV % obtained are within the acceptable limit for the assay.

See print out attached.

Performance Qualification for ADVIA CENTAUR CP

With reference to the Annexure 2 and studies carried out in the Laboratory have determined that the analyzer meets all performance criteria and has passed Performance Qualification.

The System is ready for specific usage.
