Respected sir

This is to inform you that the centre established at sdnh for hiv testing was as pptct in 1998. Now the legal identity for NABL certification generated for the same as ICTC SDNH (SNO 82) which is not acceptable by the system and the process has been stop. Kindly change the center name as pptct SDNH instead of ICTC and send the corrected doc to NABL officials and us as soon as possible. So that we can further proceed the process.

Thank you

With regards  
Lab technician
