**Comments :**

Interpretation when an analyte is reported for multiple samples in a Round:

a) Reported on 2 samples:
- Two out of two pass    - Acceptable performance
- One out of two pass    - Review for random error & take action if appropriate
- Both failed    - Unacceptable performance, Review for systematic error

b) Reported on 2 samples:
- All pass    - Acceptable performance
- Two out of three pass    - Review for random error & take action if appropriate
- One out of three pass    - Unacceptable performance, Review for systematic error
- All failed    - Unacceptable performance, Review for systematic error
